# BAU 2019, Munich, Germany

**2,250 Exhibitors  
from 45 countries!  
250,000 Visitors  
19 Exhibition Halls**

Our executive team attended the BAU Conference 2019 in Munich, Germany, the World's Leading Trade Fair for Architecture, Materials & Systems! This conference helped RWC gain more insight on innovative & technical solutions to projects that can be utilized here.

The main purpose of the conference was to introduce the latest techniques, materials and applications that can be put to use in actual practice. During the conference, Rod & Larry discovered new methods to enhance the design-build/VE aspect of projects when working with clients. They will now be taking steps to implement these new methods.

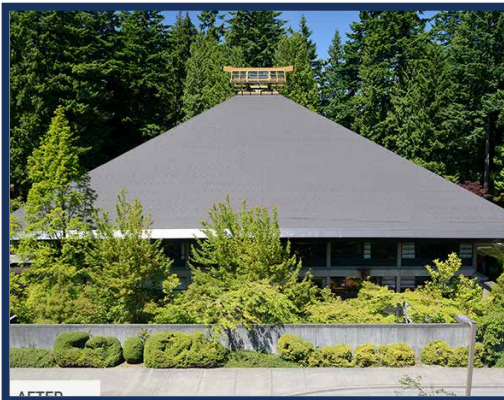

We are looking forward to attending the next BAU conference in 2021!

## Recently Awarded Projects

**YVR Pier D Expansion**  
PCL Construction

**UBC Asian Centre**  
Kinetic Construction

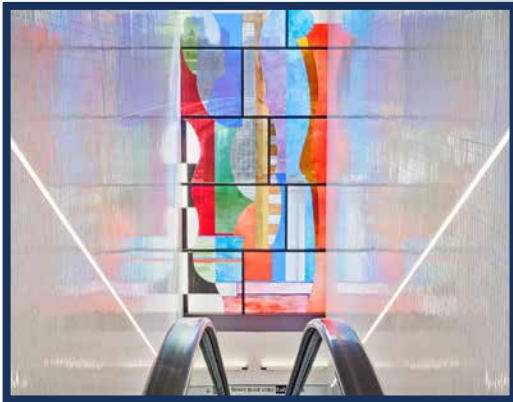

**King George Hub**  
Ledcor Group

# Just Completed:

Our portion of the project included the removable panel ceiling systems, steel studs and GWB wall assemblies. Some of the challenges included working around the public where safety was a key factor in how we performed our tasks. In addition, our team mainly worked night shifts to accommodate revenue service. This project took approximately two years to complete.

**Commercial & Broadway SkyTrain Station**  
Smith Brothers & Wilson

**Joyce & Collingwood SkyTrain Station**  
Graham Construction

This project consisted of removable panel ceiling systems and new escalator & elevator housing. Some of the work was performed over the SkyTrain tracks. Majority of work was produced during the non-revenue (night shifts) portion of the day. A challenge faced was the in abnormal subzero temperatures. Our team carefully coordinated with train service to combat snow fall. This project took one year to complete.

## TC Ironworks Ventana Construction

This project was a newly created commercial strata property with four (4) levels of commercial retail & office space. Our portion included steel stud wall assemblies.

## West 7th Ventana Construction

This was a new construction four (4) story commercial building with three (3) levels of parkade below. We performed the base building interior and exterior scope including demising walls, furring walls, fire rated shafts, washrooms, elevator lobbies and exterior framing to accommodate cladding.

# Project in Progress Spotlight: Quan Ju De, Etro Construction

Quan Ju De is a high end Chinese Restaurant specializing in Peking roast duck. This restaurant is located on Cambie & 12th in Vancouver and it is one of many franchised restaurants located all of the world! Our foreman Nick Hill and his outstanding team are known for their attention to detail and their ability to turn over high quality intricate builds. They have been working on this project since March 2018!

Our interior scope includes intense drywall coffered ceilings, pre-formed drywall knife edge bulkheads, acoustical wall and ceiling panels and installation of custom plaster ceiling features. This design mimics and inverted aerial rendition of the Forbidden City in Beijing. Our exterior scope includes a new canopy as well as a new facade at the entrance. Click [here](#) for more information on the Quan Ju De Toronto, Ontario location.

## RWC Team Addition

**Sonia Riarh**  
Marketing Specialist,  
Business Development & Sales

Sonia Riarh joined RWC in November 2018, and she brings with her extensive experience, knowledge and a defined skill set within marketing. With over six (6) years of experience in various marketing roles, Sonia has been able to apply her skills for several diverse industries which include manufacturing, gaming and real estate. Although Sonia is new to the construction industry she has taken a keen interest in the development of supporting RWC's marketing initiatives.

Over the past few months, Sonia has defiantly displayed her talent by improving RWC client proposal material, increasing awareness of precise branding initiatives and working on various marketing collateral for both internal and external clients. Sonia has proven to be adaptable, resourceful and attentive to marketing incentives within RWC. We are eager to see what she has in store for us when it comes to the continued growth and development within RWC while increasing the RWC brand awareness.

"Choose a job you love, and you will never have to work a day in your life."

- Confucius

## RWC Team Promotion

**Aaron Broomfield**  
Pre-Construction

Aaron Broomfield has been a member of the RWC family for five (5) years and through his outstanding work and dedication to progress and development, he has been promoted to Pre Construction. In his new role, Aaron will be working closely with the Estimating Team to increase customer service for our clients. This is a vital role as RWC continues to grow.

In his role, Aaron will be involved in the Value Engineering component of the job where he will be working with clients to ensure their needs are thoroughly met. In addition, he will be working closely with engineers to review and edit shop drawings; and he will be involved in the submittal process (including extensive LEED projects).

As RWC continues to grow, so will Aaron's role and we are excited for these changes!
